Introduction//Business Problem:

This Capstone Project is mainly concerned to help people in exploring better amenities around their neighborhood. It will assist people in smart and efficient decision making on selecting neighborhood in Scarborough, Toronto.

People who are looking for better places to live in and want to have easy access to transportation, schools, colleges, supermarket, medical shops, hospitals, grocery, fitness centers, theater, amusement park and society of people belonging to same group.

Every year lots of people are migrating to various states of Canada. So, they need lot of research for good housing prices and good school for their children.

This Capstone Project aim to create an analysis of features for a people migrating to Scarborough to search a best neighborhood as a comparative analysis between neighborhoods. The features include median housing price and better school according to ratings, crime rates of that particular area, road connectivity, weather conditions, good management for emergency, water resources both fresh and waste water and excrement conveyed in sewers and recreational facilities.

It will help people to get awareness of the area and neighborhood before moving to a new city, state, country or place for their work or to start a new fresh life.
